

# snazaroo™

The world's favourite face and body paint

Every child can be a "little monster" sometimes - so let them get into character with this fantastic creation!

Using a damp sponge, apply Grass Green paint to the whole face, making sure the model's eyes are shut. You can even paint the hair!

With a brush and Bright Red paint, draw the eyebrows on the forehead, curling the ends down onto the nose. Paint two lines across each cheek and crease lines at the corner of each eye.

Using the brush and White paint, add fangs at each corner of the mouth and draw a line as a highlight on each eyebrow. With Black paint outline the fangs and paint the lower lip. On the top lip add short lines to create the effect of creases. Paint the end of the nose and add the outlines above the eyebrows. Finish by adding dots all over the face.
